Wasting Metabolism

©Eric Vogt
For the 11th time, Helmholtz Munich is organizing this high-impact conference in Munich, again during the Oktoberfest.

Internationally leading scientists in diabetes research are joining us to present and discuss their most recent data and achievements.

Our overriding goal is to find new ways to prevent and treat type 1 and type 2 diabetes.

This 11th conference will put an accent on diabetes and wasting metabolism. Barbara Cannon (Stockholm University) will receive the Helmholtz Diabetes Lecture Award in recognition of her life-time achievements.

Sponsoring Opportunities

We have put together a comprehensive list of sponsoring opportunities for you to select, but also welcome ideas to customize the options to make sure they fit your needs.
Sponsoring for HeIDi Awards

Two HeIDi Awards - each € 5,000 (plus 19% VAT if applicable)

The Helmholtz Young Investigator in Diabetes (HeIDi) award recognizes the outstanding achievements of two young scientists - rising stars. Each plenary speaker nominates one young scientist for the HeIDi Award. A special award committee finally selects two award winners amongst all the HeIDi Nominees after they have given their lecture (the HeIDi lectures are part of the scientific program of the conference).
